ABOUT THE GROUP

Malik Glass & Interiors is a leading glass and interior solutions provider in Oman, backed by over 20 years of industry experience and 5 years of successful operations in the Sultanate. Originating from India, our expertise spans custom glasswork, interior design, and architectural solutions. We've delivered major projects for top clients like Saud Bawhan, Mall of Muscut, Oman Avenues Mall working with premium brands such as Dorma, Geze, Osorio, Dormate, Emirates Glass, and Guardian Glass.

Our experienced team of project planners, designers, and artisans is committed to delivering precision, innovation, and high-quality installation. We stay ahead of industry trends through regular training and creative approaches. From residential to commercial spaces, we bring every customer's vision to life with customized glass and interior solutions that seamlessly combine functionality, style, and durability.

OUR VISION

To be the premier multi-disciplinary partner in the construction and design industry, recognized for setting the gold standard in integrated building solutions, sustainable craftsmanship, and architectural excellence over the next decade.

OUR MISSION

To deliver seamless, high-quality projects by integrating construction, MEP, and specialized fabrication under one roof. We are committed to empowering our clients through technical precision, innovative interior solutions, and superior glass and aluminum craftsmanship that stand the test of time.

INTERIOR WORKS

We deliver comprehensive total interior solutions in partnership with Limited Edition Dubai — a trusted leader with a solid presence in Dubai and African regions.

Backed by three decades of expertise, they operate a state-of-the-art 20,000 sq ft manufacturing facility equipped with advanced machinery and a skilled team.

Experience unmatched quality, innovation, and reliability in every project.

Complete Fit-Outs

From flooring and wall finishes to
Lighting and furniture

Precision Artisans

Skilled designers and artisans
Committed to innovation and quality

Space Utilization

Efficient layouts that balance
Functionality with aesthetic appeal

We work closely with clients at every stage, offering expert guidance on design choices, materials, colors, and finishes. Our approach ensures efficient space utilization, cost-effective solutions, and durable results, delivering interiors that are both visually appealing and practical for everyday use.

WINDOW & DOOR

WORKS

We provide complete window and door solutions for residential, commercial, and industrial projects. Our services include design, fabrication, and installation of high-quality windows and doors that combine durability, safety, and modern aesthetics. We work with premium materials such as aluminum, glass, uPVC, and steel to ensure long-lasting performance and smooth functionality. From stylish main doors to energy-efficient windows, we deliver precise finishing, reliable workmanship, and solutions that enhance both comfort and architectural appeal.

MODULAR KITCHEN

A modular kitchen carefully designed for modern lifestyles, combining elegant aesthetics with practical functionality. Every element is planned to maximize space, featuring smart storage solutions, smooth layouts, and durable, high-quality finishes that ensure long-lasting performance. The design promotes a clean, organized, and clutter-free environment, making cooking easier, more efficient, and enjoyable. With a perfect balance of style and comfort, a modular kitchen enhances the overall look of your home while supporting effortless daily living and seamless kitchen experiences.

STEEL STRUCTURE WORK

Our expertise extends beyond glass and interiors to comprehensive steel structure fabrication and construction solutions. We deliver high-quality steel structural solutions, including the fabrication of molds, racks, supports, bridges, mounting systems, monopoles, and pole brackets. Our team combines technical precision with innovative design to ensure every steel structure is safe, durable, and aligned with client requirements.

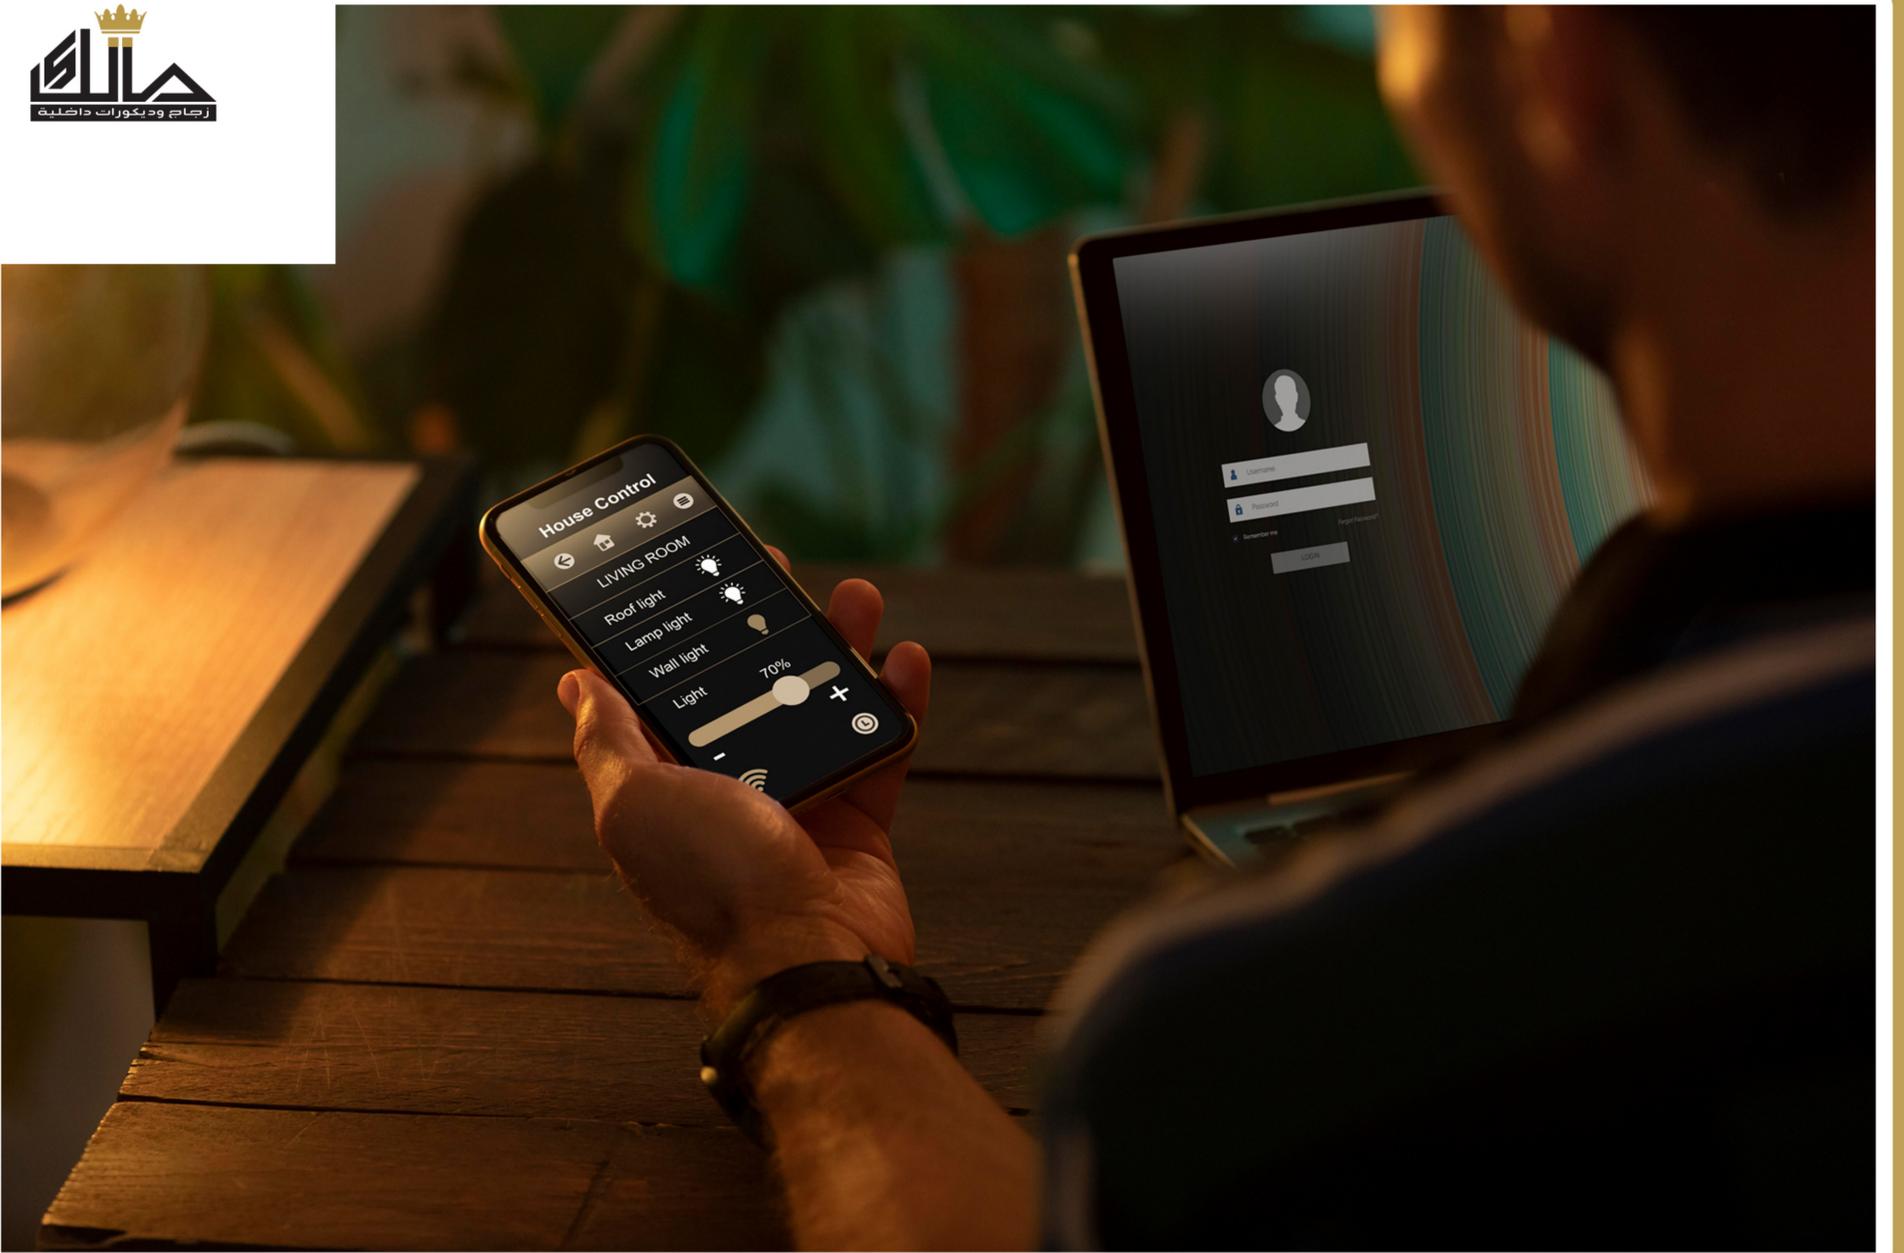

With years of experience in executing complex projects, we handle both industrial and commercial steel structure offering tailored solutions that meet international standards. From concept to installation, our steel structural work reflects strength, durability, and aesthetic appeal, supporting the foundation of your projects with unmatched craftsmanship.

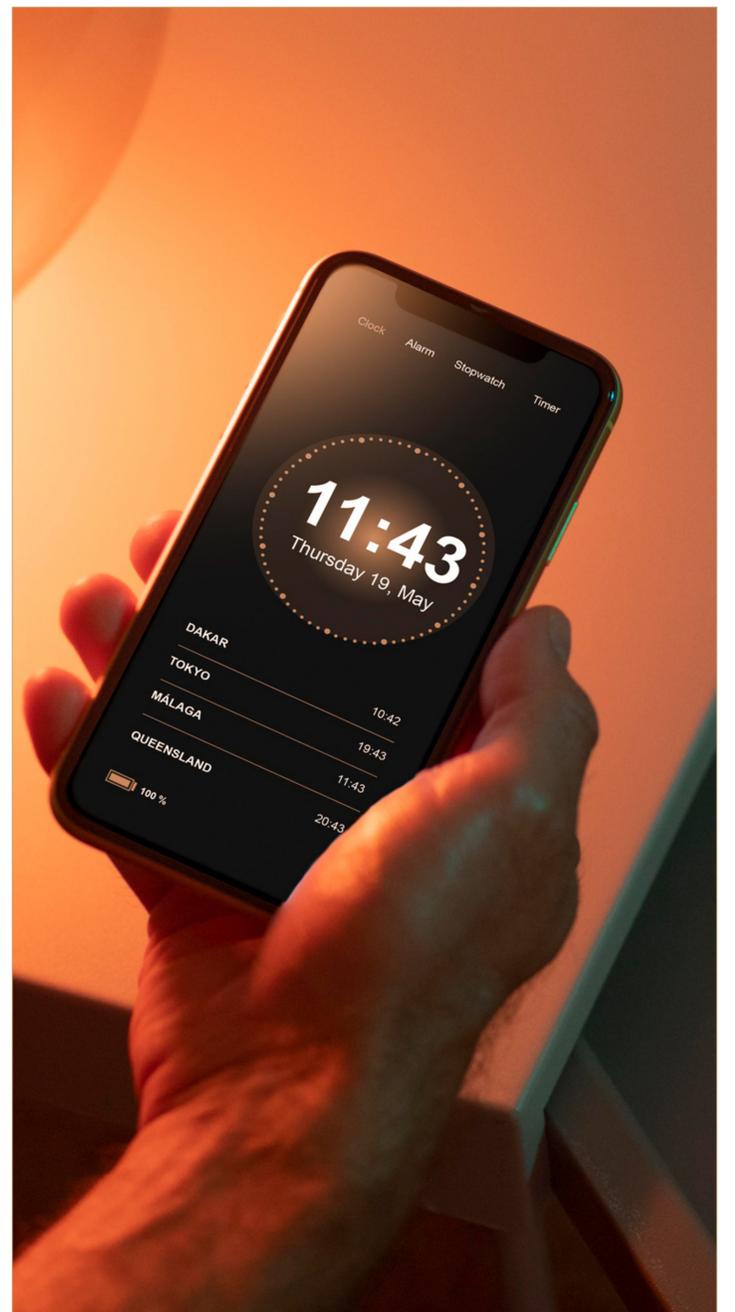

HOME AND OFFICE AUTOMATION

We provide smart home and office automation solutions designed to enhance comfort, efficiency, and security. Our systems seamlessly integrate lighting, climate control, security, audiovisual, and access control into a single, user-friendly platform. From residential spaces to commercial offices, we deliver customized automation solutions that improve energy efficiency, simplify daily operations, and create intelligent environments tailored to modern lifestyles and workplaces. We deliver smart home and office automation solutions that enhance comfort, security, and energy efficiency through seamless, intelligent control systems.

CIVIL & ARCHITECTURAL SERVICES

We offer end-to-end civil and architectural services tailored to meet the demands of modern construction projects. From initial planning to final execution, our approach emphasizes quality, safety, functionality, and design excellence. We work closely with clients, consultants, and authorities to ensure smooth project delivery and full compliance with approved standards.

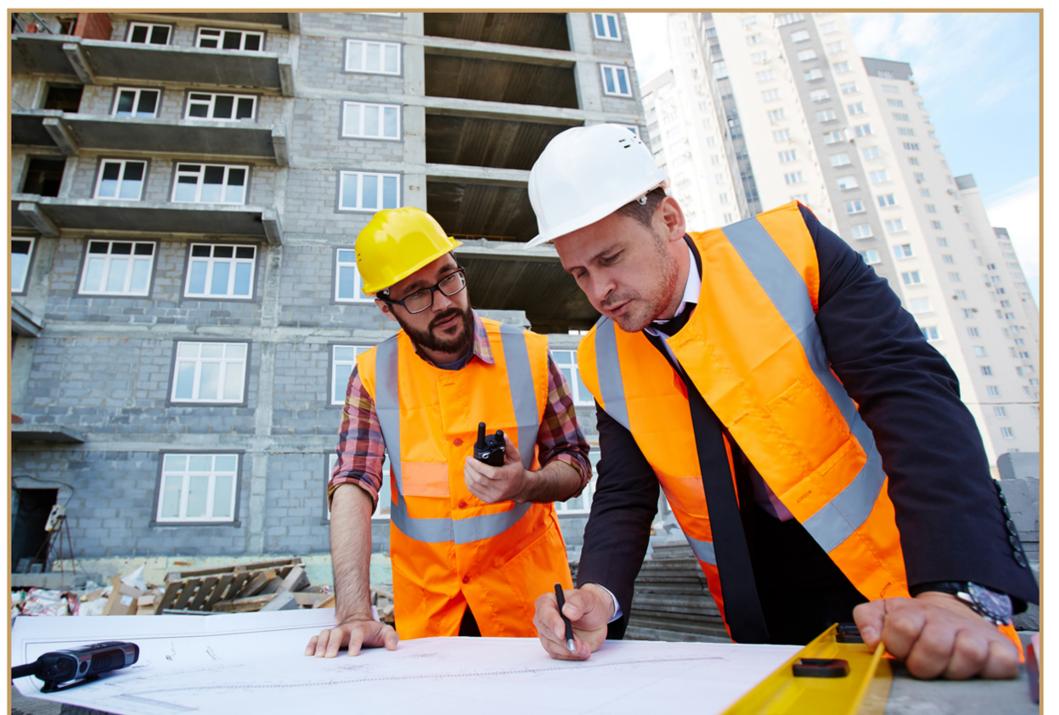

Our civil engineering services cover a wide range of works including steel structural construction, foundations, concrete and steel structures, tanks, sheds, industrial facilities, and site development works. Each project is executed with careful planning, skilled workmanship, and strict quality control to ensure strength, durability, and long-term reliability.

In architectural services, we specialize in creating well-planned spaces that combine aesthetics with functionality. Our designs are developed with a clear understanding of client requirements, space utilization, and environmental factors. We provide detailed architectural drawings, layouts, elevations, and design coordination to ensure seamless execution on site.

We also support projects with technical coordination, site supervision, and value engineering to optimize cost and performance without compromising quality. By using modern construction techniques and proven design practices, we deliver projects that are efficient, sustainable, and visually appealing.

Committed to timelines, transparency, and client satisfaction, we build structures that deliver lasting value and showcase excellence in civil engineering and architectural design.
